Q1

Please indicate which regulator you are and your main point of contact should we require follow up.

Organization: College of Midwives of Ontario
Name of the regulated profession: Midwives
Contact Name: Kelly Dobbin, Registrar/CEO
Contact Email: k.dobbin@cmo.on.ca
Contact Phone Number: 416-640-2252 ext. 226

Q2

Section 1 - During the reporting period (January 1st– December 31st, 2021), please indicate if your organization has introduced any changes in the following areas impacting your registration processes by clicking on each of the appropriate boxes below. Registration requirements either through regulation, by-law or policy.

Yes,

Description of change/improvement that would impact fair registration outcomes:

- The Registration Committee approved two options to enable applicants to provide satisfactory evidence of continuing competency in neonatal resuscitation (NRP), cardiopulmonary resuscitation (CPR) and emergency skills (ES) for entry to practice accommodating ongoing limitations related to in-person training due to the COVID-19 pandemic.
- The Registration Committee continued to approve the Final Clerkship Exam as the qualifying examination under the Registration Regulation for entry to practice. Applicants who had successfully completed the Final Clerkship Exam and met all other registration requirements were required to sign an Acknowledgment and Undertaking with the College requiring the applicant to complete the Canadian Midwifery Registration Examination (CMRE) when it was next available. This enabled applicants to become registered despite the cancellation of the May 2021 administration of the CMRE by the Canadian Midwifery Regulators Council (CMRC).

No,

Description of change/improvement that would impact fair registration outcomes:

No changes.

Q11

Training and resources for staff regarding registration

Yes,

Description of change/improvement that would impact fair registration outcomes:

In 2021, Council training was delivered on the following topics: - The Regulatory Journey of a Midwife - Overview of the International Midwifery Preregistration Program (IMPP) - Anti-Racism: The History of Racism in Canada Unconscious Bias and Microaggressions - Chairing Effective Meetings - Health Care and Midwifery in Indigenous Communities - Good Governance - Risk-Based Regulation Registration Committee Orientation and Training was implemented by staff and legal counsel in January 2021. In addition, new Registration Committee members were provided with orientation and training when appointed to the Committee, with specific focus on Registration Committee panels.

Q12

Relationship with third party service provider(s)

Yes,

Description of change/improvement that would impact fair registration outcomes:

- The International Midwifery Preregistration Program (IMPP) run by the Chang School of Continuing Education at Toronto Metropolitan University, formerly Ryerson University, was paused in the Fall of 2021. No enrolment for the 2021-22 academic year. The IMPP was the College's third party provider for assessment and bridging for internationally educated midwives in Ontario, helping internationally educated midwives become eligible for application and registration with the College. - To address this gap, the College immediately started work to develop an alternative for internationally educated midwives to be assessed to be able to apply for registration.

Q13

Accreditation of educational programs

No,

Q20

Section 2 – If applicable, please list your organization’s top three accomplishments during the reporting period that relate to fair registration practices.

- 1 **Ongoing ability to register applicants despite the cancellation of the May 2021 Canadian Midwifery Registration Examination (CMRE).**
 - 2 **Options provided to enable applicants to meet the continuing competency requirements for entry to practice despite disruptions to in-person course offerings for NRP, CPR and ES due to the COVID-19 pandemic.**
 - 3 **Transition of the CMRE to an online format that could be undertaken from anywhere in the world with remote proctoring. Although the College does not administer the CMRE, we worked with our fellow midwifery regulators through the Canadian Midwifery Regulators Council (CMRC), who is responsible for the examination, to facilitate this change. The first online administration of the CMRE took place in October 2021.**

Q21

Section 3 – If applicable, please list the top three risks that impacted your organization’s ability to achieve better registration outcomes for applicants during the reporting period. Please also indicate the measures you have taken to mitigate the impacts of these risks.

1

Risk: The Chang School of Continuing Education at Toronto Metropolitan University, formerly Ryerson University, was unable to offer the International Midwifery Preregistration Program (IMPP bridging program for internationally educated midwives) for the academic year September 2021-2022. Therefore, during this period the College did not have a third party provider to assess internationally educated midwife applicants who do not otherwise meet the non-exemptible education requirement under the Registration Regulation. Mitigation Measure: College immediately took steps to develop an alternative pathway to registration for qualified internationally educated midwives. The College secured a consultant expert to develop an orientation and assessment program for the College and in June 2022 Council approved the pilot program to be used to establish equivalency for entry to practice under s. 8(1)1.iii. of the Registration Regulation.

Q22

Section 4 – Do you believe that you have a Canadian Experience Requirement (CER)? If so, please describe the applicant competencies that you seek to develop through this requirement in the comment box below CER: work experience or experiential training obtained in Canada.

Yes,

Other (please specify):

The IMPP bridging program which ran until the summer of 2021, included a 12-16 week placement at a midwifery practice group in Ontario. This was part of the bridging program as it provided the ability to assess the entry to practice Canadian Competencies for Midwives within a real practice setting. It also provided orientation to the practise of midwifery in Ontario and the ability for the internationally educated midwives to attend clinic, attend births in hospital and the community and provide continuity of care under the supervision of a mentor and preceptor. This provided IMPP participants with contacts within the midwifery community and references for future hospital privileges, while also helping to develop and assess core competencies. This experience was also used towards meeting the current clinical experience requirements under the Registration Regulation. In the College’s new orientation and assessment pilot program, there is currently no placement and therefore no Canadian experience requirement.
